PROFESSIONAL PROFILE

Solution-oriented Backend Developer with a robust foundation in designing scalable, secure API architectures. Expert in **Node.js, Express.js, and MongoDB**, with a unique cross-disciplinary background in **Industrial Automation**.

Core Competency: Rapid Adaptation. Demonstrated ability to master complex technical environments, from software engineering in Nigeria to industrial automation systems in China. Possesses a "systems-thinking" mindset, bridging the gap between hardware logic and server-side efficiency. Committed to continuous learning and implementing modern backend best practices.

TECHNICAL CORE

Backend

- Node.js
- Express.js
- RESTful API Design
- JWT & OAuth
- MVC Architecture

Languages

- JavaScript (ES6+)
- Python
- SQL
- Visual Basic

Database

- MongoDB (Mongoose)
- MySQL
- Schema Design
- Data Validation

Tools & DevOps

- Postman
- Git / GitHub
- Render
- npm
- Environment Configuration

Systems & Automation

- PLC Programming
- HMI Monitoring
- Distributed Systems
- Hardware/Software Integration

PROFESSIONAL EXPERIENCE

TS Academy | Lagos, Nigeria

Backend Developer Trainee

Dec 2025 – March 2026

- **Architected and Optimized:** Developed high-performance server-side logic, focusing on secure CRUD operations and efficient data retrieval patterns.
- **Scalability:** Integrated MongoDB Atlas for cloud-based storage, ensuring database schemas were optimized for growth and low-latency handshakes.
- **Reliability:** Implemented rigorous API testing workflows using Postman, identifying and resolving over **20+ edge-case bugs** before deployment.

- **Agile Collaboration:** Adapted to fast-paced team sprints, translating complex business logic into functional, documented endpoints.
-

Chitic Automation | Hangzhou, China

Industrial Automation Intern

June 2024 – Dec 2025

- **Global Adaptation:** Successfully integrated into a high-tech Chinese engineering environment, mastering the **PCS1800 automation system** in a cross-cultural professional setting.
 - **Algorithmic Engineering:** Developed and refined logical algorithms for HMI monitoring, improving real-time data visualization accuracy for industrial processes.
 - **System Configuration:** Managed complex hardware-to-software configurations, ensuring seamless communication between physical modules (**AI, AO, DI, DO**) and digital controllers.
-

FEATURED BACKEND PROJECTS

Secure Banking API | Node.js, Express, MongoDB

- Designed a secure financial transaction engine featuring user authentication, encrypted account management, and real-time transaction history.
 - **Key Achievement:** Built a custom validation middleware to prevent race conditions during fund transfers.
-

School Library Management Engine | Node.js, Mongoose

- Developed a circulation logic system that automated book tracking and eliminated "double-borrowing" conflicts.
 - **Key Achievement:** Designed a complex relational schema within a NoSQL database to maintain strict data integrity.
-

Inventory & Search API | Node.js, Express

- Built a comprehensive product management system with advanced filtering and search functionality.
 - **Key Achievement:** Reduced query response times by **30%** through strategic database indexing and optimized server-side logic.
-

EDUCATION

Yaba College of Technology | Lagos, Nigeria

Higher National Diploma (HND)
2023 – 2026

Hangzhou Technical University | Zhejiang, China

Specialization: **Electrical Automation**
2024 – 2025

Coursework:

- Distributed Systems
 - PLC Logic
 - System Monitoring
 - Advanced Hardware Configuration
-

CERTIFICATIONS & CONTINUOUS LEARNING

- **Advanced Web Technologies & Node.js** – Udemy (2025)
 - **Modern JavaScript Programming** – Udemy (2025)
 - **Product Design (UI/UX Foundation)** – Zuri Team (2024)
 - **Full-Stack Fundamentals** – Skillhub (2022)
-

SOFT SKILLS & ADAPTABILITY

- **Rapid Learning:** Proven track record of mastering new languages (technical and cultural) in record time.
 - **Problem Solving:** Analytical mindset derived from industrial engineering and backend logic.
 - **Communication:** Fluent in technical documentation and collaborative team environments.
-
